CATC History

In 1949, the Vilseck Post was placed under the command of Seventh Army and became the Seventh Army Tank Training Center. Even though troop billeting and classrooms were primarily located near Vilseck, the Tank Training Center also operated special tank ranges in the Grafenwoehr area. Then, in February 1958, the Tank Training Center was re-designated as the Seventh Army Training Center, with headquarters at Vilseck. The entire Grafenwoehr reservation, which included the Grafenwoehr and Vilseck Sub-Posts, became one training center. In 1959, a newly remodeled Grafenwoehr Post became the headquarters of the Seventh Army Training Center. With the re-establishment of Grafenwoehr as the headquarters of the new Seventh Army Training Center, a number of other changes also took place. The area near Vilseck became the Seventh Army Combined Arms School, and at the same time, the Hohenfels Training Area, about 41 miles southwest of Grafenwoehr, with 40,000 acres, was assigned to the new Training Center. Thus, the Seventh Army Training Center became the largest training complex in Western Germany. The year 1970 saw still another move toward combining the training facilities of the U.S. Soldier in Europe under one major headquarters. Kimbro Kaserne, near Murnau, began to phase out and in November, the Officer and NCO Maintenance Supervisor's Courses were moved to Vilseck. With this move, the Seventh Army Combined Arms School was re-designated as the USAREUR Combined Arms Training Center (CATC) on 01 July 1971. Another page in the book of the Seventh Army Training Center's constantly expanding support role was added in 1973 with the announcement that it would assume the support and command roles for all USAREUR individual training activities in Europe. Combat support courses from the Combat Support Training Center, Oberammergau, were moved to Vilseck. NATO system accredited in 2017 and TRADOC system accredited in 2019.

VISION MISSION LINES OF EFFORT

Vision

CATC courses prepare students to implement important key leader individual skills and operate effectively within appropriate communities of practice. CATC continually improves curricula, instructors, and process to leverage modern (and effective) learner-centric instruction techniques, engaging in collaborative curricula, and effective Training Facilities/TADS to prepare USAREUR-AF organizations to excel in the operational environments of the present and future.

Mission

The 7ATC Combined Arms Training Center (CATC) coordinates and executes training programs to meet USAREUR-AF training requirements and operational gaps as its theater-specific institutional training organization.

Lines of Effort

Readiness: Provide relevant and quality courses through compliance with U.S. Army and USAREUR-AF regulations, U.S. Army and NATO accreditations, integrating instructor competencies, certifications, and evaluation processes. Continue improvement through passionate instructors that are awarded, modern classrooms, accurate relevant content, and engaged students. Accommodate evolving doctrine and enhance facility capabilities in order to optimize learning while mirroring closely to DOTMLPF principles.

Modernization: Updating facility capabilities, enhancing faculty professional knowledge, revising course material and ensuring relevancy, and always striving to improve upon course delivery techniques that support better learning. Updating facility capabilities, course material, and enhancing faculty professionalism such that delivery techniques support learning while adequately meeting the training requirement needs of the U.S. Army.

Interoperability: Provide Allied and partner nations learning opportunities, alongside U.S. Soldiers, in order to support their nation's readiness and further U.S. multinational relationships. Review MASL courses and participate in USAREUR-AF led coordination events designed to offer training seats to multinational Soldiers.

CATC Allies and Partnered Courses

As a NATO Accredited Institution, CATC offers several opportunities to Non-US personnel.

Military Articles and Service List (MASL)

The Military Articles & Services List (MASL) is a catalog of descriptive codes and text used to identify materiel and services available to be transferred to foreign governments and international organizations. The codes and text are used in a myriad of systems to identify what is being transferred and to track logistics and financial transactions (e.g., Letters of Offer and Acceptance [LOAs] documents, lease documents, bills sent to the customers, storage facility inventory lists, shipping documentation, surcharges) and perform diverse reporting.

CATC MASL List (Available to NATO/PfP)

- Advanced Brigade All Source Training – B272001
- Brigade All Source Training – B272000
- Combat Lifesaver Course (MED 106) – B279006
- NATO Approved: Common Faculty Development – Instructor Course – B215001
- C-IED Course (C-IED) – B223002
- European HAZMAT Certification (HAZ 15) B252003
- Joint Fires Observer Course (JFOC) B233304
- Technical Transportation of HAZMAT (Ammo 62) - B252002
- US Small Arms Weapons (USSW) – B222005 – On Demand

Unconditionally Accredited Education & Training Facility through 2023, Courses listed in NATO's Education and Training Opportunity Catalog (ETOC)

BARRACKS / LODGING

Rose Barracks Vilseck, DE 92249

All in-processing students who require CATC barracks will report to STUDENT DETACHMENT BLDG 163B on Rose Barracks in Vilseck. If your class starts on a Monday and you require billeting, your report time is Sunday between the hours of 1300-1600 and if it starts during the week then you will report the day before your class start date. If you are reporting for a CATC course and DO NOT require billeting, then you DO NOT need to in-process with Student Detachment and can report straight to your classroom on the start date. Students receives confirmation email by ATRRS upon successful course reservation and a welcome letter is sent out a week before class start specifying time, place and location of class. Student Detachment operating hours are normal duty hours from 0900-1600, USAREUR-AF duty days at the barracks office Bldg. 163B, Rose Barracks.

There are no reservations for barracks space. Students report the day prior to their class start date to request billeting. Unit schools representatives can call ahead of time to see if barracks space is available for their students in upcoming courses. CATC does not issue a Statement of non-availability for billeting and/or the dining facility (DEFAC).

All military TDY students that stay in the CATC Barracks are required to attend a mandatory accountability formation on Friday at 0700 for out-processing. Uniform is the Operational Camouflage Pattern OCP's or your service equivalent. Those students who are assigned to 7ATC tenant units in Vilseck or Grafenwoehr are to attend their own unit accountability formation. Students are required to bring a lock and linen for their assigned locker and bunk.

CATC Student Detachment (In-processing):
DSN 314-599-5119 or Commercial 09662-835119 Cell: 0162-2966449
(Duty hours 0900-1700)

Transportation is not provided. A military dining facility, AAFES food outlets, CATC Barracks, and classrooms are within walking distance on Rose Barracks.

CATC Student in-processing
Südlager 163b
92249 Vilseck, Germany

Location: 49.639400, 11.797814

Mobile Training Teams (MTT) to USAREUR-AF

CONUS-based TRADOC Schools may provide individual training augmentation via Mobile Training Teams (MTT) to USAREUR-AF for assigned units, provided a valid requirement exists and is programmed in a timely manner as part of the Structure and Manning Decision Review (SMDR) by USAREUR-AF assigned units. Contact your Unit S3/G3/Training NCO for further information. Some CONUS-based functional training is provided in-theater by assigned and contracted training teams. These teams provide several opportunities in the two courses below. Course enrollments must be approved by the USAREUR-AF level proponent office and must be coordinated through their unit level training managers.

- **SHARP Foundation**
- **Jumpmaster**
- **Air Assault & Rappel Master**
- **Battle Staff NCO**
- **Master Fitness Trainer**
- **Anti-Terrorism Officer Level II**

A unit assigned to USAREUR-AF is tasked to host the courses listed above, allocations for seats will be prioritized appropriately. Contact unit level Training Managers for ATRRS reservation.

Hazardous Materials Driver Training Course

Description: The Hazardous Materials Driver Training Course (HAZ11) covers the duties and responsibilities of the ground vehicle operator for safe and legal transport of bulk hazardous materials in Europe. Special emphasis is paid to German laws, considering most students will operate vehicles in Germany. Upon graduation, each student is issued a photo ID card called an Accord European Relatif au Transport International des Marchandises Dangereuses par Route, better known as the “ADR card” or an “ADR certificate.” The HAZ-11 course is mandated by AER 350-1. ADR certification is valid for 5 years and is required by law to transport hazardous cargo in Europe.

Note: Military Vehicles transporting HAZMAT as part of its Unit Basic Load (UBL) do not require ADR certification. Contact your unit Dangerous Goods Advisor and see ADR for a full list of exemptions. MUST be 21 years old if course is taken in Poland.

Prerequisites: Must have a driver license for the HAZMAT vehicle they will be operating, DA Form 5984-E (OF 346) or DA Form 348-E (DA 348). Must provide a passport size colored photo at the start of the course. Must have approved DTS orders. Must have 1-year retainability after course completion (waiverable). Must meet prerequisites on Unit Commander's Checklist. Certification is valid for 5 years. Failure to meet prerequisites will result in dismissal from the course.

Course Capacity: 25

Duration: 40 Hours / 5 or 6 days depending on country

Available to Non-US personnel: Yes

MTT capable: Yes

ATRRS Course Number: CATC-HAZ 11

School Code: 757

MASL Number: B252001

ETOC Course Code: LOG-LG-21808

European HAZMAT Certification (Virtual)

Description: This virtual instructor led course is designed to train and certify Army and European personnel to prepare documents required to transport hazardous material in Europe. This course complies with the requirements of the Army in Europe to train responsible persons as outlined in AE REG 55-4 and the European Agreements for the transport of hazardous material over public roads and by rail ADR/RID). This course provides students with instructions on how to properly use governing regulations (AER 55-4, ADR, RID) while providing examples of how to solve the most common transport problems facing the US Army in Europe. Training will also cover multi-modal transport and the guidelines for cargo and document preparation. HAZ 15 is valid for 5 years.

Prerequisites: Students whose employment requires certification and have successfully completed HAZ-12 or TTHM (see next page) within the past 12 months. Student must provide proof at the start of class that they have graduated from HAZ-12 or the TTHM course. A memorandum from their commander is required if there is no proof of course HAZ-12 or TTHM completion. Proof must be provided one week prior to start of class. Must have 1-year retainability in USAREUR-AF after course completion, Microsoft Teams, and Blackboard access.

NOTE: Virtual

Technical Transportation of Hazardous Materials

Description: This course provides personnel from all services detailed technical information pertaining to all phases of the transportation of hazardous materials. It satisfies the mandatory training required to certify hazardous materials and conduct function specific training for subordinate personnel as specified in the Defense Transportation Regulation (DTR 4500.9-R). Course content includes emphasis on United States and international laws and regulations covering transportation of hazardous materials by all modes. International regulations covered include the International Maritime Dangerous Goods Code and the International Commercial Air Transport Associations Dangerous Goods Regulations. United States regulations covered include the Department of Transportation (DOT) 49 Code of Federal Regulations (CFR) and U.S. military regulations. Course material includes emphasis on hazard communications (i.e. shipping papers, marking, labeling, and placarding); packaging, compatibility on transport vehicles, security requirements and emergency response information. 9E- F58/322-F37 (MC) (HAZ 12) is valid for 2 years.

Prerequisites: Must be appointed as, or scheduled to be, a Hazardous Material transport certifier; or supervise or plan Hazardous Material transport functions. Must have 1-year retainability after course completion.

Course Capacity: 30

Duration: 80 Hours / 10 days Available to Non-US personnel: Yes

MTT capable: Yes

ATRRS Course Number: 9E-F58/322-F37 (MC)

School Code: 910V

MASL Number: B252002

ETOC Course Code: LOG-LG-21810

Unit Movement Officer Deployment Planning

Description: This course is mandatory training for all UMOs (primary and alternate) IAW AR 525-93. This course addresses the mobilization and deployment processes at various levels of command within the Army. TC AIMS requirements at BN and CO levels are met.

Focus of the course is on legal authorities, mobilization concepts, plans, policies, procedures, and the responsibilities for mobilization and deployment at DOD, HQ DA, ACOM, CONUSA, JFHQ, USARC, and installation levels. Mobilization and deployment planning interfaces at various Army command levels and the dependency of mobilization and deployment activities on automated systems is emphasized.

Prerequisites: Submission of DD Form 2875 SAAR NLT 10 working days prior to the start of the course. Complete Air Equipment Preparation Introductory Course. Active and Reserve Component Commissioned Officers in grades Lieutenant through Lieutenant Colonel and Warrant Officers who are appointed to or under consideration for appointment to a unit/staff movement position involving unit strategic deployment or unit movements by surface modes. Enlisted personnel on unit orders as the Unit Movement NCO, or whose duty requires a working knowledge of unit deployment/movement planning. DOD civilians who are appointed or under consideration for appointment to an installation/staff position requiring working knowledge of unit deployment/movement planning.

Course Capacity: 24

Duration: 80 Hours / 10 days

Available to Non-US personnel: Yes (version for allies/partners)

MTT capable: Yes. Railhead w/ railcars required.

ATRRS Course Number: CATC-8C-F17/553-F5 (MC)

School Code: 757

MASL Number: B253001

Description: This course is designed to provide unit movement officers and supervisory personnel with the knowledge and skills required to conduct airlift planning as part of a joint combat airlift operation. Students are trained on load planning principles, determination of proper aircraft weight and balance, and on aircraft characteristics. Successful course completion and receipt of the training certification constitutes authorization for the air load planning official to sign off on aircraft load plans for air shipment of unit cargo, personnel, and supplies. This course is mandated by AER 350-1, which requires all deployable units to have two Unit Movement Officers and two Airlift Planners per company and battalion. Note: Air Movement Control Officer (AMCO)/Air Load Planners

a. Two (2), AMCO/Air Load Planners (one Primary, E-6 and above and one Alternate, E-5 and above) will be appointed in writing by the Commander for each Battalion, Brigade, and those specialty units (Company/Detachment) that deploy on their own; e.g., Airborne units, Explosive Ordnance Disposal (EOD), Military Police (MP), MCT, Army Engineer units, and Special Forces Operational Detachment Alpha and Bravo (ODA/ODB) that deploy via Strategic Airlift (STRAT-Air). These personnel must attend and pass the Air Deployment Planners Course / Air Load Planners Course with ICODES.

b. AMC offers an Air Load Planners Certification Course to those units aligned under the AMC Affiliation Program. This course is designed to train personnel in the planning and execution of airlift operations. After completing the course, the individual is authorized to sign the aircraft load plan. Attendees should be in grade E-5 or higher and have a valid CAC with computer access.

Prerequisites: DA Form 4187 Schools Request (both student and CDR must sign), SRB (required to show student has one year retainability; commanders can request exceptions), Appointment Orders (if you are sending multiple students from the same unit, they can all be included in one document). EPIC 1&2 Certificate (students must provide an EPIC Certificate) <https://lms-jets.cce.af.mil/moodle/course/index.php> This is an Air Force training site, so users will need to register before they can login and access the training. They must complete both EPIC 1 and 2. *THIS TRAINING IS ONLY VALID FOR SIX MONTHS, MUST BE CURRENT TO ATTEND CLASS.

Students will only receive one certificate after both are done.

Course Capacity: 24

Duration: 64 Hours / 8 days

Available to Non-US personnel: Country must have

ICODES MTT **capable:** Yes

ATRRS Course Number: CATC-UMO 152

School Code: 757

MASL Number: B229931

Maintenance Manager Course

Description: This course provides job enhancement training to USAEUR-AF company and battalion maintenance leaders operating maintenance activities in maintenance management policies, procedures, and methods; logistics readiness; safety. GCSS-Army training includes: requesting operational maintenance support, and materiel status processes; Shop Stock Listing (SSL) management; and equipment data reports.

Prerequisites: ALL students must complete the GCSS-Army Training and Certification system (GTRAC) web-based training (WBT) prior to reporting to CATC. Students must be a SGT or above, or civilian equivalent. Must be assigned or scheduled for assignment as a Unit XO, Maintenance Supervisor, BMS, BMT or BMO.3.

Course Capacity: 18

Duration: 16 Hours / 2 days

Available to Non-US personnel: No

MTT capable: Yes

ATRRS Course Number: CATC-LOG 215A

School Code: 757

Property Book Course

Description: This course covers the Inventory Process in GCSS-Army for Property Book Officers (PBO) or personnel assigned to supply responsible for managing, conducting and completing inventories. As Property Book personnel, you will use GCSS-Army and Force Element structures to review and manage organizational and logistics information of the assigned UICs. Main topics covered are: Review the GCSS-Army Organizational Logistics structure, Explore the Force Element (FE) structure, Manage Stock Storage Locations (SLocs) for property.

Prerequisites: ALL students must complete GTRAC web-based training prior to reporting to CATC sponsored resident GCSS-Army training. Must be assigned or scheduled for assignment as a PBO or clerk in a PBO office. Warrant Officers with PMOS of 920B or equivalent Commissioned Logistics Officers and Enlisted personnel holding PMOS 92Y, or 920A

Course Capacity: 18

Duration: 40 Hours / 5 days

Available to Non-US personnel: No

MTT capable: Yes

ATRRS Course Number: CATC-LOG 72A

School Code: 757

Unit Supply Course

Description: This course covers the Inventory Process and ordering processes in GCSS-Army for Unit Supply Specialist. As a Unit Supply Specialist, you will use GCSS-Army to preform and manage inventories and order provisional supplies for assigned UIC's. Main topic covered are: Review the Unit Supply Menu, Property Management, Inventory Process, Non-Standard Materials, Component Management, and Managing PB01 Work Orders.

Prerequisites: All students will complete the GCSS-Army Training and Certification system (GTRAC) web-based training (WBT) prior to reporting to Combined Arms Training Center (CATC) sponsored resident GCSS-Army training. Assigned or scheduled for assignment as primary Unit Supply, including military and civilian supply personnel, supervisors, technicians, and staff responsible for Unit Supply operations. Warrant Officers with PMOS of 920B or equivalent Commissioned Logistics Officers and Enlisted personnel holding PMOS 92Y and 920A.

Course Capacity: 18

Duration: 40 Hours / 5 days

Available to Non-US personnel: No

MTT capable: Yes

ATRRS Course Number: CATC-LOG 73A

School Code: 757

Medical Logistics Course

Description: ALL students will complete the GCSS-Army Training and Certification system (GTRAC) web-based training (WBT) prior to reporting to Combined Arms Training Center (CATC) sponsored resident GCSS-Army training. Primary audiences are personnel assigned or scheduled for assignment as primary Medical Logistics Clerk or BMSO, including military and civilian supply personnel, supervisors, technicians, and staff responsible for Medical Logistics Operations. Warrant Officers or equivalent Commissioned Logistics Officers and Enlisted personnel holding PMOS 68J or from the 68 series MOS.

Prerequisites: GTRAC is the primary source of web based training for GCSS-Army. The GCSS-Army WBT is a pre-requisite for attending CATC LOG 74A, taught at CATC. The GCSS-Army WBT should be completed 1-4 weeks before classroom training begins. Students are required to produce Certificates of Completion and must take the required courses within GTRAC. The curriculum includes both the WBT and exams for each lesson. The entire set of WBT lessons for a specific role must be passed in order to meet the LOG 74A, training prerequisites.

Course Capacity: 18

Duration: 40 Hours / 5 days

Available to Non-US personnel: No

MTT capable: Yes

ATRRS Course Number: CATC-LOG 74A

School Code: 757

S4 Training Course

Description: This course provides professional sustainment enhancement training to a Supply Support Activity (SSA) Plant workforce, supervisors, technicians, and select echelon's requiring functional GCSS-Army instruction. Our GCSS-Army training includes the following: introduction, property management, communications processing, Job Aid, requisition flow, excess, retention, and retrograde management, inventory management, stockage level management, component management, several management reports, and the standard performance process

Prerequisites: All students must complete GTRAC web-based training prior to reporting to CATC sponsored resident GCSS-Army training. Must be assigned or scheduled for assignment as a PBO or clerk in a PBO office. Warrant Officers with PMOS of 920B or equivalent Commissioned Logistics Officers and Enlisted personnel holding PMOS 92Y, or 920A.

Course Capacity: 18

Duration: 40 Hours / 5 days

Available to Non-US personnel: No

MTT capable: Yes

ATRRS Course Number: CATC-LOG 75A

School Code: 757

GCSS-Army Master DriverAdmin Ops

Description: This course provides sustainment training in GCSS-Army computer operations. It is intended for Master Driver and managers that are using GCSS-Army maintenance operations. As a Master Driver, students are responsible for creating accurate Operator Permit ID's for operators in an organization, containing their current equipment and training qualifications using GCSS-Army.

Prerequisites: ALL students must complete GTRAC web-based training prior to reporting to CATC sponsored resident GCSS-Army training. Assigned or scheduled for assignment as a Company Level or Higher Master Driver. Activity workforce including military and civilian personnel, supervisors, technicians, and staff responsible for managing motor pool operations. Experience: Warrant Officers, Civilians, and Enlisted personnel with a PMOS/Duty Position responsible for logistical support such as 920B, 920A, 915A, 151A, GS-0346, GS-2001, 92A, 91X, 88M, 88N or equivalent Commissioned Logistics Officers.

Course Capacity: 18

Duration: 8 Hours / 1 day

Available to Non-US personnel: No

MTT capable: Yes

ATRRS Course Number: CATC-LOG 77A

School Code: 757

Commander's Course GCSS-Army

Description: The course provides an overview of the Commanders Role in GCSS-Army (Global Combat Support Systems - Army). The course trains O3 level commanders and E7-E8 grade NCOs on GCSS-Army processes. Students learn how to approve and disapprove dispatches, approve and disapprove SARP (Small Arms Repair Parts), review the recoverable and repairable report, monitor their Primary and Sub-hand receipts, and view unit stocks.

This lesson is a required prerequisite for all GCSS-Army New Equipment Training (NET) courses. This lesson describes: The historical challenges and disadvantages of STAMIS. What GCSS-Army is and why the Army chose it to replace STAMIS. The capabilities and benefits of GCSS-Army. The mission and scope of GCSS-Army. How GCSS-Army training is delivered.

Prerequisites: O3 or E7/E8

Course Capacity: 18

Duration: 4 Hours / 1/2 day

Available to Non-US personnel: No

MTT capable: Yes

ATRRS Course Number: CATC-LOG 78A

School Code: 757

Parts Record Clerk Course

Description: This course will provide sustainment training in **GCSS-Army** computer operations. The course is intended for operators and managers **GCSS-Army** maintenance operations. This course consolidates the legacy ULLS-G and SAMS-1 functional courses into the new GCSS-Army functional class. The operational functions include system utilities, interfaces, personnel, supply, equipment, maintenance, and reports procedures. Students will proceed through each of the functions and enter data in order to be functional operators and managers at the end of this course.

Prerequisites: ALL students must complete GTRAC web-based training prior to reporting to CATC sponsored resident GCSS-Army training available at <http://gcss.army.mil/Training/GTRAC.aspx> Assigned or scheduled for assignment as a parts record clerk or associated activity, including military and civilian personnel, supervisors, technicians, and staff. Experience: Warrant Officers, Civilians, and Enlisted personnel with a PMOS/Duty Position responsible for logistical support such as 920B, 920A, 915A, 151A, GS-0346, GS-2001, 92A, 91X or equivalent Commissioned Logistics Officers

Course Capacity: 18

Duration: 40 Hours / 5 days

Available to Non-US personnel: No

MTT capable: Yes

ATRRS Course Number: CATC-LOG 80A

School Code: 757

Global Combat Support SYS Army Warehouse Operations

Description: The course provides sustainment enhancement training to a Supply Support Activity (SSA) Plant workforce, supervisors, technicians, and select echelon's requiring functional Global Combat Support System-Army (GCSS-A) instruction. GCSS-Army training include the following: Course Overview, (Receiving Section) Receipt Document Processing, (Retrograde Section) Process Turn-in Document, (Storage and Issuing Section) Perform Put-a-way, Pick Procedures and Customer Issue Process. Overview: Perform Inventory and Warehouse Management to include maintaining effective SSA Operations, employment of tactical Enterprise Resource Planning (ERP), Software Application Products (SAP) and system embedded Business Intelligence. Students will be required to identify, access, and utilize DoD approved Internet sites and Data Files.

Prerequisites: ALL students will complete GTRAC web-based training prior to reporting to CATC sponsored resident GCSS-Army training. Assigned or scheduled for assignment as primary Supply Support Activity workforce including military and civilian warehouse personnel, supervisors, technicians, and staff responsible for managing warehouse operations. Experience: 6 months to 1 year SARSS1/2 with duties as Stock Control, Receiving, Issuing, Storage and Turn-in clerks and or supervisors. Warrant Officers with PMOS of 920B or equivalent Commissioned Logistics Officers and Enlisted personnel holding PMOS 92A.

Course Capacity: 18

Duration: 40 Hours / 5 days

Available to Non-US personnel: No

MTT capable: Yes

ATRRS Course Number: CATC-LOG 82A

School Code: 757

Material and Execution Management

Description: This course provides professional sustainment enhancement training to Material and Execution Managers, Logistics Personnel, Soldiers and Civilians at Brigade/Battalion S4/SPO and at Support Operations, Sustainment Brigade (level I material managers), and the Expeditionary Sustainment Command (ESC)/ Army Sustainment Command (ASC)/ Theater Support Command-TSC (level II, and III material managers) that will provide effective oversight to the Supply Support Activities (SSA) within their area of responsibility utilizing Systems, Applications, and Products in Data Processing (SAP) / Enterprise Resource Planning (ERP) environment. Material and Execution Managers perform critical actions prior to their units processing requisitions through the SSA. Therefore, this course focuses on four critical areas: Release Strategy/ZPARK, MRP Controller exception errors, MRP Spool messages, errors, and SSA performance monitoring transactions, necessary to ensure appropriate depth of the SSAs' Authorized Stockage List (ASL) are maintained by the MRP Controller. In an ERP system, the MRP controller is responsible for the availability of materials in a storage location and ensures that the correct/relevant materials are procured utilizing effective and efficient methods.

Prerequisites: ALL students must complete GTRAC web-based training prior to reporting to CATC sponsored resident GCSS-Army Material Management Training. Assigned or scheduled for assignment as primary Material Management Activity workforce including military, civilian personnel, supervisors, technicians, and staff responsible for managing Material and Equipment. Experience: 6 months to 1 year with duties as Material Manager, Item Manager, Support Operations NCOIC/OIC, Maintenance Technician/Manager, and or Supervisors responsible for Supply Chain & logistics. Material & Execution Managers, Warrant Officers, Civilians, and Enlisted personnel with a PMOS/Duty Position responsible for logistical support such as 920B, 920A, 915A, 151A, GS-0346, GS-2001, 92A, 91X or equivalent Commissioned Logistics Officers.

KMI Management Client Course

Description: This course is TRADOC accredited and designed to certify skills and knowledge to operate and manage automated COMSEC accounts in the U.S. Army utilizing the Management Client (MGC) workstation. This course provides students with instruction on the Key Management Infrastructure (KMI) MGC workstation, perform system initialization, interface with other accounts, manage COMSEC material in CMCS channels, order and generate traditional and modern keys, destruction, prepare and submit reports within the KMI hierarchy, identify threats and security incidents, COMSEC emergency procedures, and perform other accounting duties as required. Instruction consists of conference (lectures), hands-on training utilizing instructor-led demonstration and independent student annexed practical exercises. There are a total of four exams. All students attending must successfully achieve a passing score of 75% of the available points in each of the four exams given in order to graduate. This course is mandatory for all COMSEC officers, both primary and alternate KMI Operational Account Managers (KOAM), Command COMSEC Inspectors and Auditors.

Prerequisites: Must be SGT (pay grade E5) or above, GS-5 or above, officer, warrant officer and contractors that meet the specific job requirements. Waivers must be approved by USAREUR-AF G2. Must have a final Secret or higher security clearance. This may not be waived. The Course Manager must receive a memorandum signed by the unit security manager validating the individual's security clearance no later than one week prior to the first day of training. Must have at least 1 year remaining in the command after graduation (9 months for short-tour areas). Minimum GT score of 100. Must be a candidate for COMSEC Officer, KMI Operational Account Manager (KOAM), Alternate KMI Operational Account Manager (AKOAM), or a Command COMSEC Inspector or Auditor position.

Small Arms Maintenance for Unit Armorers Course

Description: This course trains Soldiers to maintain physical security of weapons and Quick Reaction Force (QRF) ammunition in an arms room. Manage weapons maintenance using The Army Maintenance Management System (TAMMS). Perform Organizational Maintenance on the following weapons: M4A1 Carbine, M320 Grenade Launcher, M2A1 .50 Caliber Machine Gun, M240 (Series) Machine Gun, M249 Machine Gun, MK19 (grenade launcher), M17 Pistol, M500 Shotgun. Maintain weapons using technical manuals. Manage Categories 1-4 and consolidated arms rooms.

Purpose: To train unit armorers, or Soldiers to serve as unit armorers, to manage an arms room and to perform unit-level maintenance and repair on small arms. Graduates of the course will be qualified to manage arms rooms and to perform unit-level maintenance and repair on a variety of hand-held, shoulder-fire, and crew-served weapons.

Prerequisites: None

Course Capacity: 24

Duration: 80 Hours / 10 days

Available to Non-US personnel: Yes (by case basis) Country must have U.S. small arms weapon systems

Medic Tables/Validation

Description: The TC 8 -800 course is the annual training requirement for Soldiers in MOS 68W, consisting of Medic Tables I-VII and Skills Validation during Table VIII. All Soldiers that attend and complete all training will receive a training certificate for 48 continuing education units (CE's) and a DA 7442 to reflect completion of all tables. Class size is limited to 12 Soldiers.

This course provides realistic trauma and medical training utilizing TraumaFX and SimMan 3G simulators. Students will be evaluated according to the current Tactical Combat Casualty Care guidelines. The trauma lanes will be completed at our urban training site with realistic weapons, sound and smoke effects.

Prerequisites: Soldiers must hold the primary 68W MOS and be in the grade of SFC or below.

Combat Lifesaver Course

Description: This course is established by AR 350-1 to provide for immediate, far-forward medical care on a widely dispersed battlefield while awaiting further medical treatment and evacuation. The presence of CLS-certified personnel and aid bags is required by TRADOC Reg 350-6, paras 3- 47 and M-2, for most IET training events. The foundation of CLS is built on the concept and principles of Tactical Combat Casualty Care (TC3). CLS takes the basic knowledge and skills the soldier attained from Common Task Training and addresses the unique aspects of applying emergency medical care to casualties on the battlefield. The advanced management of airway, chest trauma and hemorrhaging of the battlefield casualty are all addressed. Triage and Tactical evacuation are also addressed. This course contains written and practical examinations and culminates a final one day STX.

Chemical, Biological, Radiological, Nuclear Defense

Description: This course teaches Chemical Biological Radiological Nuclear (CBRN) defense. Training includes survival in a nuclear, biological, or chemical environment. Soldiers are trained on identifying different biological and chemical agents, overviews of radiological and chemical detection and protection equipment, and maintenance and logistics. The CBRN defense course trains Soldiers on supervising and implementing mission-oriented protective posture (MOPP), Unit level CBRN reports, radiological monitoring, decontamination operations, conducting unit CBRN defense training, and unit radiological operations. Soldiers are also taught how to properly conduct a mask confidence exercise and conducted MOPP gear exchange while being exposed to tear gas. The CBRN defense course is mandated by Army Regulation (AR) 350-1 and Army in Europe (AE) Regulation 350-4 for non 74A/74D personnel serving as CBRN Officer/NCO/Alternate.

Prerequisites: Enlisted soldiers must have a skill technical (ST) score of 95 or general technical (GT) score of 100. Enlisted soldiers must be able to complete the course and have a remaining ready reserve obligation of one year.

Biometrics Train the Trainer (T3)

Description: Biometric Train the Trainer Course (T3) is designed to provide Soldiers with advanced Biometrics Operation skills and the ability to train unit personnel to support commanders with extensive subject matter expertise in all Biometrics systems to include: Biometrics Automated Toolset (BAT) and BAT Handheld and Biometrics Enabled Intelligence (BEI) processes and practices. A graduate of the BXT3 Course will be able to train unit personnel to provide the commander with detailed knowledge and understanding of the biometrics process in order to maximize its effectiveness in support of the unit's mission. This course expands on the BOSC by preparing Soldiers to train unit personnel for staff level integration of the BAT/BAT Handheld systems. The course work is supplemented by a series of practical exercises and teach-back sessions that reinforce specific blocks of instruction. Upon completion of the course students will have the necessary skills to: train Soldiers on the incorporation of biometric collection into operations based on knowledge of biometric collection and processing systems and associated equipment and capabilities, train Soldiers to collect a subject's biometric and biographic data, process subject for enrollment and identification into the BAT database, train Soldiers to collect biometrics, biographic and demographic information with the BAT Handheld Device, train Soldiers to transfer data using the BAT Handheld Device; identify a subject with the BAT Handheld Device, train Soldiers to plan for the incorporation of DNA collection into operations based on knowledge of DNA collection, processing and associated equipment and capabilities, train Soldiers to define and describe the elements required to produce Biometric Enabled Intelligence, train Soldiers to define and explain the Biometric Watch List and plan for and execute Biometrics Operator Specialist Course at the unit.

Biometric Operator Specialist Course

Description: This course trains students on Army Biometric Equipment to be unit Subject Matter Experts. The course satisfies the AE 350-1 requirement for one trained individual per company-sized unit. Training Includes instruction on the Biometrics Automated Toolset Army (BAT-A) v1 and v2, Crossmatch Jumpkit with the Mission Oriented Biometrics Software (MOBS) Biosled and submitting enrollments to the IDEX database. Students prepare all biometrics systems for operation before training on subject enrollment, identification, data transfer, and performance of basic equipment maintenance and troubleshooting. The coursework includes lecture and discussion, live demonstrations, daily checks on learning, hands-on training, practical exercises to reinforce lessons, and culminates with individual testing and validation. BOSC graduates are prepared to support their commander with staff level biometrics integration.

STRYKER LEADER COURSE-EUROPE (SLC-E)

Description: This course is designed to provide Soldiers with the knowledge and skills required to operate in all levels of leadership within a Stryker Brigade Combat Team. Students will cover Stryker variants found across Army formations. Emphasis will be placed on the ICV- D (30mm Dragoon) and the ICV-J (CROWS-J) variants that are currently only fielded to 2nd Cavalry Regiment. The subject material is focused on providing aptitude to achieve technical and tactical competencies required of a Leader. Over three weeks, course material is broken down into three distinct topics; Safety and PMCS, Weapon Systems, and Tactical Proficiency. Upon successful completion of the course students will be able to identify platform capabilities, components, and characteristics; perform self-recovery operations; demonstrate knowledge of unit METL and build a unit training plan for CRWOS-J and ICV-D proficiency; be able to efficiently employ the CROWS-J and ICV-D on the battlefield and has an ASI of R2.

Prerequisites: Students must be in the grade of E-5 through E8 and hold the MOS of 11 CMF, 12B, 12Z, 13F, or 14P. O-1 through O-3 with a branch of 11A, 12A, 13A, or 14A. Or currently serving in a Team Leader Position. Waivers will be approved on a case by case basis.

Course Capacity: 24

Duration: 15 days

Master Resiliency Training Level 1

Description: The course produces leaders with the capability to teach proven resilience skills to the Soldiers in order to enhance their performance and increase their resilience, both individually and collectively. The MRT course is an established training program that has demonstrated efficacy in reducing behavioral health problems in a wide range of demographics. Soldiers will review the myths about resilience and why resilience is critical for success and well-being. They will also learn about the scientific literature of the core factors that predict resilience, with a specific focus on the factors that are amenable to change. Ideally, Soldiers taking this course will return to the force as drill sergeants, squad leaders, platoon sergeants and platoon leaders, first sergeants and company commanders and they will be expected to train these skills to those Soldiers in their unit. The MRT's can also serve as a stand-alone MRT for a unit, post or geographical area based upon the command guidance and mission need. Additionally, they will serve as subject matter experts for their commanders. Soldiers receiving this resilience training and become certified MRT's will learn resilience and performance enhancing skills and how to teach them. These skills have a proven efficacy in contributing to the success of teams, leaders, families, students, executives, military personnel and with an ASI of 8R.

Prerequisites: Enlisted: E6 to E8, Warrant Officer WO1 to CW4, Commissioned Officers O1 to O4, Civilians GS7 to GS12. Sergeants in the grade of E5 with a promotable status are permitted to attend, but must be recommended by name through their Command. Must meet H/W IAW AR 600-9.

Course Capacity: 30

Duration: 80 Hours / 10 days Available to Non-US personnel: No

MTT capable: No

ATRRS Course Number: MRT-C

School Code: 145Z

Leader Development Course

Description: The course enhances the capability of Soldiers to recognize, in self and others, the key factors of optimal performance, and develop the ability to apply and communicate specific mental techniques designed to maximize mental strength and set the conditions for consistently high levels of performance. This course focuses on the underlying knowledge and mental competencies (i.e., motivation, attention control, confidence and energy management) required for self-awareness and self-regulation, which are necessary conditions for leaders to be able to think critically and creatively. This approach specifically targets the "BE" aspects of BE, KNOW, DO. The vast majority of Soldiers notice that those leaders that they admire most are most often a result of "Who" they are as a person and "How" they are as a person, rather than what they do. This course will provide an opportunity to broaden understanding, and learn the practical skills for developing and honing the "BE" mental and emotional attributes. By the conclusion of the course, Soldiers will have created a Portfolio of personalized mental skills to apply to an upcoming performance. In addition, the course provides a specific method for continual influence of their developed philosophy of excellence, executable within "coachable moments" found in training with peers and subordinates. Leaders teach, coach and mentor. Lastly, the outcome of this course is to rapidly evolve the next generation of junior leaders, so that they perform far beyond their given experience and training.

Prerequisites: Attendees must be E4(P)/E5 or higher, preferably in a leadership position. E4-E6; O1-O2 (Target Audience) but leaders of any rank are welcome.

Engage

Description: This course is the Army's skill to help Soldiers, DA Civilians and Family Members develop the ability to intervene safely, early and effectively when they see something happening that could potentially have adverse or drastic effects. This course is a facilitated discussion, intended primarily for junior leaders, gets participants thinking about the barriers to intervening and the necessary components to engaging to help others. Having situational awareness to notice what's happening and seeking additional information. Taking responsibility and understanding that your choice could impact you or your community in the future. Having a plan of action before taking action.

Common Faculty Development Instructor Course

Description: The Common Faculty Development-Instructor Course (CFD-IC) is one of two courses that comprise the Common Faculty Development Program. The CFD-IC is a ten-day, 80 hour course designed for new faculty (e.g. instructors, trainers, and facilitators). It is a competency-based course with learning objectives based on the Army Learning Concept and instructor competencies developed by Army University.

The CFD-IC qualifies new faculty to facilitate learning in an adult learning environment. It introduces new faculty to Army instructor roles and responsibilities, teaching and learning models, and professional and ethical requirements. It develops agile, adaptive, and innovative instructors, who are prepared to successfully transition to their school-specific instructor certification programs.

Graduates will possess the knowledge, skills, and abilities for teaching and learning in adult learning environments. They will be agile, adaptive, and innovative instructors, who are capable of preparing for curriculum delivery, teaching course curriculum, and assessing student performance.

Prerequisites: Students enrolled in CFD-IC must be military SSG or above (Active Component/Reserve Component/National Guard Bureau assigned or pending assignment as an instructor or Department of the Army civilian or authorized contract personnel assigned as training/education instructors, developers, training managers, and writers. Military personnel must meet height and weight standards in accordance with IAW Army Regulation AR 600-9 and AR 614-200 and pass their most recent Army Physical Fitness Test.

Battlefield Staff Ride

Description: Battlefield staff rides furnish commanders a unique and powerful leadership development tool, which enables them to accomplish a range of objectives benefiting the United States Army and USAREUR-AF in the long and short term. Battlefield staff rides use actual battlefield locations in Europe to support leadership development, including United States Army leadership and leader performance in a variety of ways. Successful battlefield staff rides require combining three elements: the intellectual, including factual details of combat sequence, time, and chronology, presented in a variety of compelling and stimulating ways (written, spoken visual); the physical, actually visiting past battlefields (on the ground in a variety of ways); and the emotional, to provoke an awareness and understanding of the impact of past combat on soldiers in order to increase a powerful understanding of what really happened. These elements combine the training needs of the command and each particular unit in order to "turn yesterday into tomorrow".

Prerequisites: None

Course Capacity: 25-45

Duration: 1 - 5 days

Available to Non-US personnel: No

MTT capable: Yes

ATRRS Course Number: CATC-BSR

School Code: 757

WW I

- Battle of St. Mihiel (Sep 1918)
- Meuse-Argonne (Sep – Nov 1918)

- World War I in the Italian Alps (1915 – 1918)
- Battle of Tannenberg (Sep 1914)

Others

- Luetzen and Bautzen (May 1813)
- Battle of Solferino (Jun 1859)
- Austerlitz (Dec 1805)
- Battle of Warsaw (1920)

WW II

- Battle of France/German Blitzkrieg in the West (May – Jun 1940)
- Normandy Campaign (Jun – Aug 1944)
- Operation North Wind (Jan – Feb 1945)
- Battle of the Bulge (1944 – 1945)
- Huertgen Forest/Siegfried Line Campaign (Sep 1944 – Feb 1945)
- Seelow Heights/Final Soviet Offensives (Apr – May 1945)
- Remagen and the Rhineland (Feb – Mar 1945)
- Operation Market Garden (Sep 1944)
- Gustav Line (Oct 1943 – Jun 1944)
- Battle of Budapest (1944 – 1945)
- Gothic Line (Jun 1944 – May 1945)

Command Post Computing Environment

Description: Provides the basic knowledge and skills of CPCE operations. Course instruction prepares operators to track and report the status of their own unit. These operators work primarily in the Current Operations mode to show their unit and nearby enemy units' status on the map and communicate with other units and headquarters using the CPCE communications tools. Operators use Plans and Orders mode to access plan documents, and update them when the plans become operational.

Reporting Instructions:

Grafenwoehr-All courses are held in Bldg 2000, Camp Aachen. All courses start at 0900 each day. Students should arrive 15 minutes early on the first day. Contact 526-0769 for further information.

Kaiserslautern- Courses are normally held in Bldg 3005 or 301 o, Panzer Kaserne, Kaiserslautern. Please contact the Kaiserslautern MTC at the number listed below to verify the exact bldg and Kaserne your course is in. All courses start at 0900 each day. Students should arrive 15 minutes early on the first day.

Vicenza- All courses for are held in Bldg 350. Camp Ederle, Vicenza. All courses start at 0900 each day. Students should arrive 15 minutes early on the first day.

Prerequisites: Security clearance: not required

This is not a CATC supported course with respect to lodging or any type of logistical support. It is the responsibility of the unit for all students coming to Grafenwoehr, Kaiserslautern, or Vicenza for a Digital University course to coordinate lodging, transportation, and meals.

Course Capacity: 8-12

Close Combat Mission Capability Kit (CCMCK)

Operator classes are given on case-by-cases bases at the TSC when requested by the unit drawing the CCMCK. Officers and NCO, no specific MOS, no pre-requisites.

Improvised Explosive Device Engagement System (IEDES)

4-hour operator training course for certification to operate the IEDTADS. Available upon request to each Training Support Center.

Training set-IED (TIED2)

Operator classes are given on case-by-cases bases at the TSC when requested by the unit drawing the TIED2. Officers and NCO, no specific MOS, no pre-requisites.

Machinegun Simulator Operator

It is a 4-hour training course for certification to operate machinegun simulator TADS. Available upon request to each Training Support Center.

Multiple-Integrated Laser Engagement System

Operator classes are given on case-by-cases bases at the TSC when requested by the unit drawing MILES. Officers and NCO, no specific MOS, no pre-requisites.

Virtual Clearance Training System (VCTS)

It is a 4-hour instructor/operator certification course. Available upon request to each Training Support Center. Officers and NCO, Combat Engineers, no pre-requisites.

Call for Fire Trainer III (CFFT III)

It is a 40-hour instructor/operator certification course. Available upon request to each Training Support Center. Officers and NCO, Artilleryman, no specific MOS, no pre-requisites.

Deployable Range Package (DRP)

Targetry operator 8-hour training course for operation of Deployable Stationary Infantry Target (SIT) lifters, Stationary Armor Target (SAT) lifters, and other target lifters. Available upon request to each Training Support Center. Officers and NCO, no specific MOS, no pre-requisites.

Engagement Skills Trainer II (EST-II)

It is a 40-hour instructor/operator certification course. Available upon request to each Training Support Center. Officers and NCO, no specific MOS, no pre-requisites.

GTA RSO/OIC Certification

Description: The conduct of the course takes place at the Grafenwoehr Training Area (GTA) Range Operation, Building 3015. It consists of an approximate 2-hour block of instruction covering training capabilities at GTA, a local medevac briefing, and a local area briefing on the use of the training complex followed by an hour long multiple choice test. The Certification Briefing reinforces the unit's OIC/RSO training and testing program. The course addresses GTA SOP #1, GTA SOP #2, DA Pam 385-3, AR 385-63, AER 385-63 which are necessary references that all OICs and RSOs must be familiar with to safely conduct a training event at GTA.

Prerequisites: O-5 signed memorandum confirming the completion of unit training and testing that listed personnel are qualified to perform OIC/RSO duties at GTA. Minimum grade of E- 5. US Army: Must complete Range Officer Professional Development (ROPD) 4A & 4C.

Course Capacity: 30

Duration: 3 hours

Available to Non-US personnel: Yes

MTT capable: No

ATRRS Course Number: N/A

School Code: N/A

*** GTA Range Safety Certification Briefing is for the Grafenwoehr Training Area ONLY ***

Inter-service Range Safety Course (Intermediate) Mobile Training Team

Description: This 5-day resident course is designed to prepare range control personnel, range officers, and range safety professionals for the implementation of range policies and the minimum safety standards for surface danger zones in a live fire range environment as set forth in AR 385-63/MCO 3570.1C, Range Safety and DA PAM 385-63, Range Safety. It will increase understanding of the standards and procedures for the safe firing of ammunition, demolitions, lasers, guided missiles, and rockets.

The training includes instruction in: Proper survey of existing ranges, identification of unsafe practices, development of effective countermeasures, development of proposed ranges, incorporation of required safety parameters, preparation of deviations and safety directives and construction of surface danger zones (SDZs).

The ability to read military maps is a fundamental task and preliminary instruction is recommended. Knowledge of weapon systems is preferred but not necessary.

Prerequisites: None

Course Capacity: 32

Duration: 40 Hours / 5 days

Available to Non-US personnel: Yes

MTT capable: Yes

ATRRS Course Number: N/A

School Code: N/A

US personnel: registration is done through the SRP website (proponent) and manage all seat allocations. Find the professional development tab and then register for the class and location.

Non-US personnel: coordinate through the 7th ATC Range Training Land Program manager (RTLTP) as they have direct contact with CONUS SRP personnel to allocate seats, and also need to coordinate with/through the International Military Training (IMT) for the payment/authorization.

7th Army Noncommissioned Officer Academy

Mission: Train and develop future leaders who are adaptive, disciplined and ready to lead effectively at the squad and team levels. We inspire Soldiers to be creative problem-solvers, physically fit, resilient and grounded in Army Values and the Warrior Ethos. We foster a positive environment that emphasizes life-long learning, adaptation, collaboration and critical thinking.

At the NCO Academy in Grafenwoehr, Germany, we train U.S. and Multinational Soldiers using the Basic Leader Course curriculum from the Sergeants Major Academy. Our Academy is a 22-day branch-immaterial course, which includes three modules and 169 academic hours. We offer nine cycles per year, averaging 256-324 students per course.

Basic Leader Course

Description: This course focuses on the practical application of leadership at the squad level with an intense field training environment that involves hands-on, performance-oriented training. It provides the Army with a leader who can visualize, describe, and execute squad level operations in varied operational environments. It is a leader course that produces a predictive, adaptive, and innovative combat leader capable of leading Soldiers in any situation. The instructional design and methods of delivery consists of face-to-face instruction, learner-centered outcomes, based on today's contemporary operational environment, and used to reinforce small unit tactics, techniques, and procedures. The course incorporates recent lessons learned, nine battle drills, 39 warrior tasks with the inclusion of weapons immersion, a 36-hour situational training exercise (STX), and an evaluated Land Navigation Course. The STX centers on competency, battle focused combat scenarios, and troop-leading procedures. Evaluation centers on the ability to demonstrate troop-leading procedures in current threat-based scenarios.

Prerequisites: US Army: Between the grade of E-4 through E-6 and must be a graduate of SSD 1. Branch Immaterial. See ATRRS for additional information on priority placement.

Description of Program: Language Training Detachment Combined Arms Language Training Center (LTD CALTC) is established by the **Defense Language Institute Foreign Language Center (DLIFLC) Extension Programs (EP)** division to provide post-basic culturally based foreign language education, sustainment and enhancement in order to maintain a proficient and language- capable force in the European Theater. CALTC also enhances USAREUR-AF's capabilities by providing regional expertise and cultural education deemed critical to execute ongoing and future Operations in a culturally and socially diverse environment.

LTD CALTC is located in Vilseck, Germany on Rose Barracks in Buildings 154/155,170, DLPT testing in 165 and is one of 10 EP LTDs worldwide. LTD CALTC provides the following language instruction at enhancement, intermediate, and advance proficiency levels: Primary – Arabic (including dialects – Iraqi and Levantine), Russian (Vilseck & Wiesbaden), French, Persian-Farsi, and North African Dialects based on Tunisian, Algerian, Moroccan, French and Ukrainian. All Courses are focused on four language skills: listening, reading, speaking, and writing. LTD CALTC regular courses are 4-weeks long (160 contact hours). LTD CALTC also provides Levantine to MSA, 8-week conversion course. North African French, 10-week course. Both courses are in the FY23 CALTC schedule.

Any language course can be arranged through MTT support, based on Ad Hoc needs. **Course Capacity:** 6 students per classroom

Squad Leader Development Course

Description: The Squad Leader Development Course (SLDC) is the Army Resilience Directorate's (ARD) contribution to TIMS. SLDC advances this initiative by giving squad leaders the opportunity to critically reflect on their leadership style and learn to employ evidence-based leadership skills. Leaders who understand their leadership philosophy, know their Soldiers, and live the Army Values can forge cohesive Army units that are strong and resilient in the face of any challenge.

Course Objectives:

Leadership Philosophy: Develop a written values-based leadership philosophy for character, commitment, culture of trust, and development.

Character: Describe authentic leadership, values, vision, and inspiration.

Commitment: Apply motivation-supportive leader behaviors to real-squad situations.

Culture of Trust: Apply psychologically safe leader behaviors to real-squad situations.

Development: Apply effective feedback strategies to real-squad situations.

Prerequisites: SGT with no less than 1 year TIG and SSG with no more than 1 year

Course Capacity: 30

Location: Vilseck / Rose Barracks

Duration: 16 Hours / 2 days

Available to Non-US personnel: No
